

I urge to please reconsider the priority move to LPFM over FM translators, and keep FM translators available for radio stations such as K-Love.

K-Love provides me a radio station that is uplifting and the messages they provide are helpful tools in dealing with family situations, not only for myself, but others in the community.

K-Love losing it's ability to broadcast would cause folks in the community to lose a valuable radio station for them and their children to listen to, especially those families that are unable to get out. K-Love provides positive music and encouragement to families in our area.

K-Love service to this community is that it provides positive alternatives to the secular radio stations for our children.

So please, do not make this change priority to LPFM that would hinder, or remove, K-Love's ability to broadcast in our area.
